Dr. Alexis Conyers is among the scientists sent from the near future to find a new home for mankind, but once she and her crew members erect the Portal, none of the colonists they're expecting arrive. When they decide to use the Portal to return to Earth they discover that nearly a thousand years have passed and the world they return to has changed drastically. Mankind, except for a small enclave, has fled Earth and humans are despised by those abandoned - the beast folk.

It's a Liger-man, Torin, who rescues her from the Bear Clan but, although he knows she belongs with her own kind, he doesn't really want to let her go and Alexis finds herself torn between her love for three very different men - Lord Torin of the Lion Clan, Lord Joel of the human clan, and William Long, Joel's second in command - all Alpha males determined to claim her for themselves - - when she doesn't want to be 'owned'.

Rating: Carnal Adult situations, adult language, graphic violence, multiple sexual partners, ménage à trois.
